

Rescue Your Irreplaceable Memories

Camera shake and shutter drag destroy our most authentic moments

The traditional fixes are expensive, complex, or simply don't work

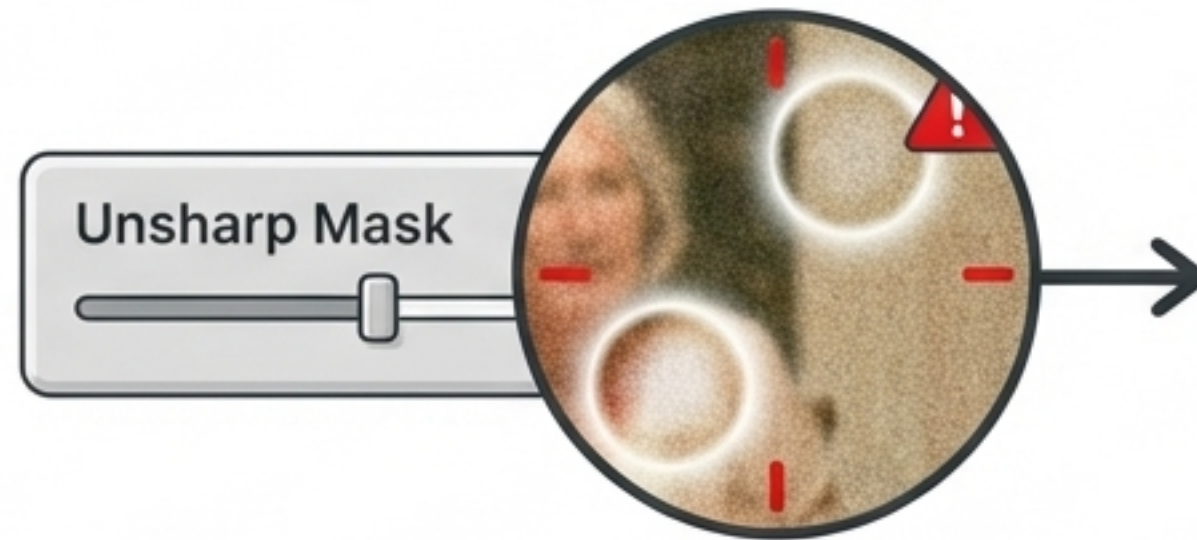

The Paywall Trap

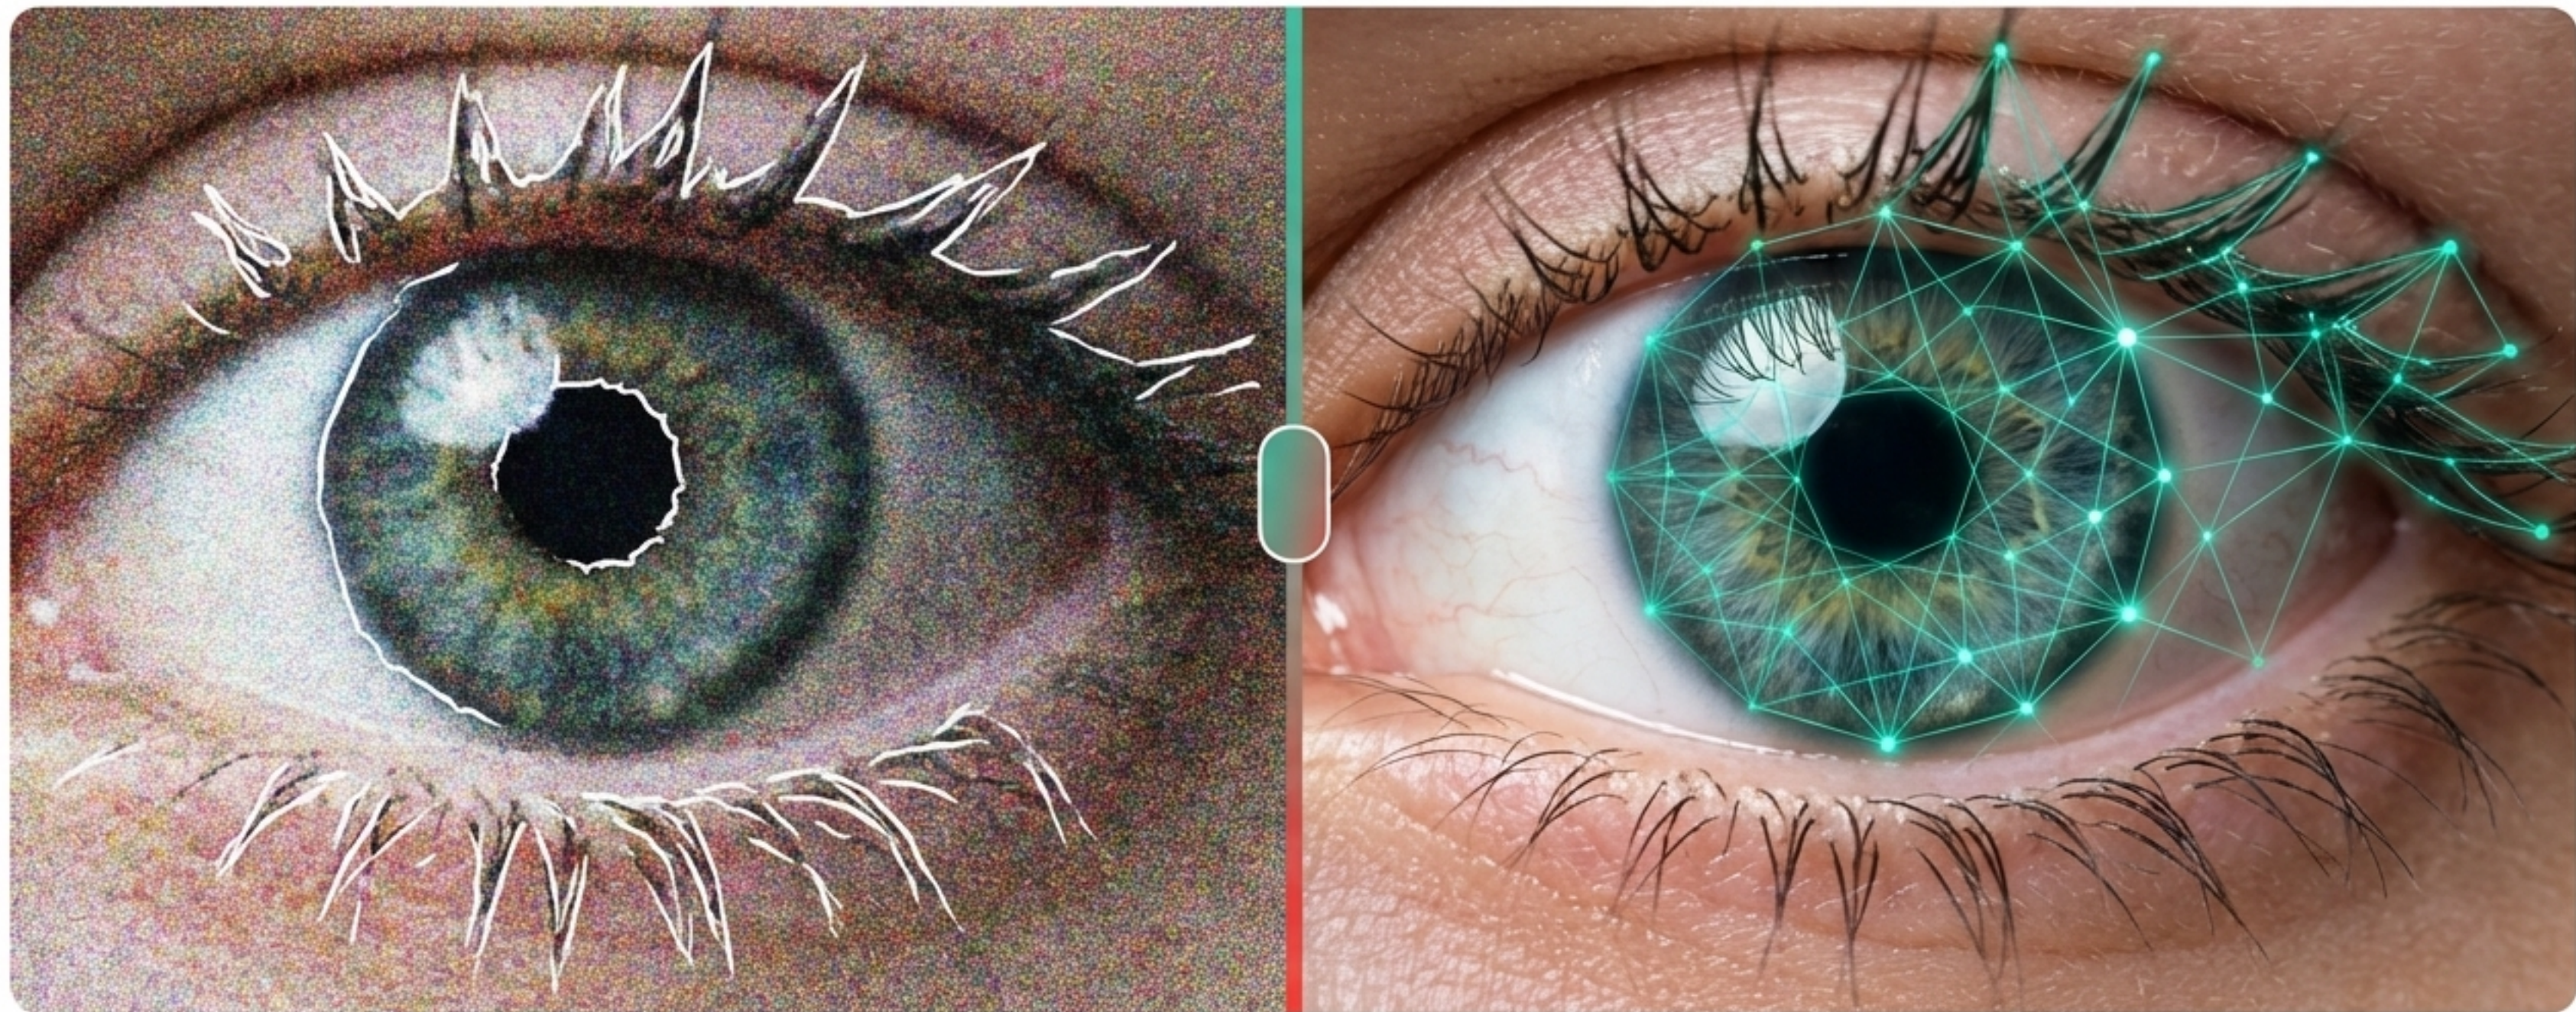

Dead End

The Noise Trap

Dead End

Artificial intelligence reconstructs missing pixels instead of just sharpening them

❗ Legacy Method: Amplifies Noise.

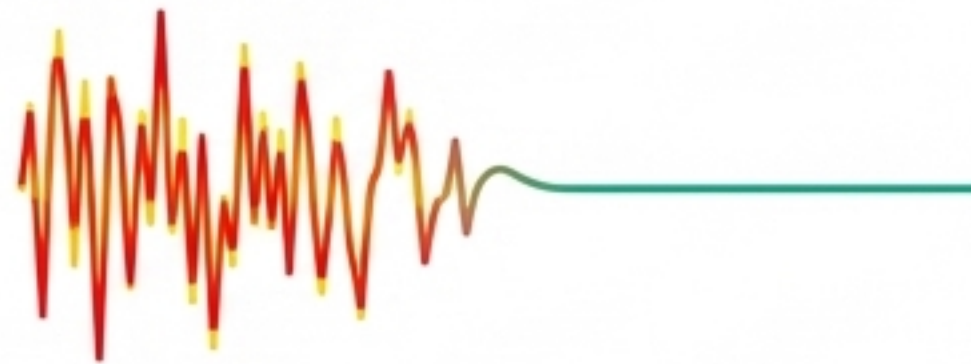

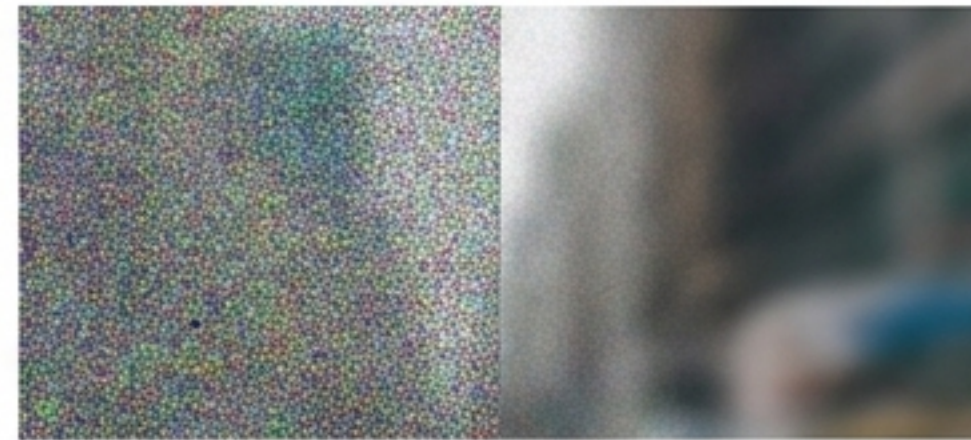

✅ CNN Method: Generates Missing Data.

How the AI analyzes and rebuilds an image in milliseconds

Step 1: Blur Analysis

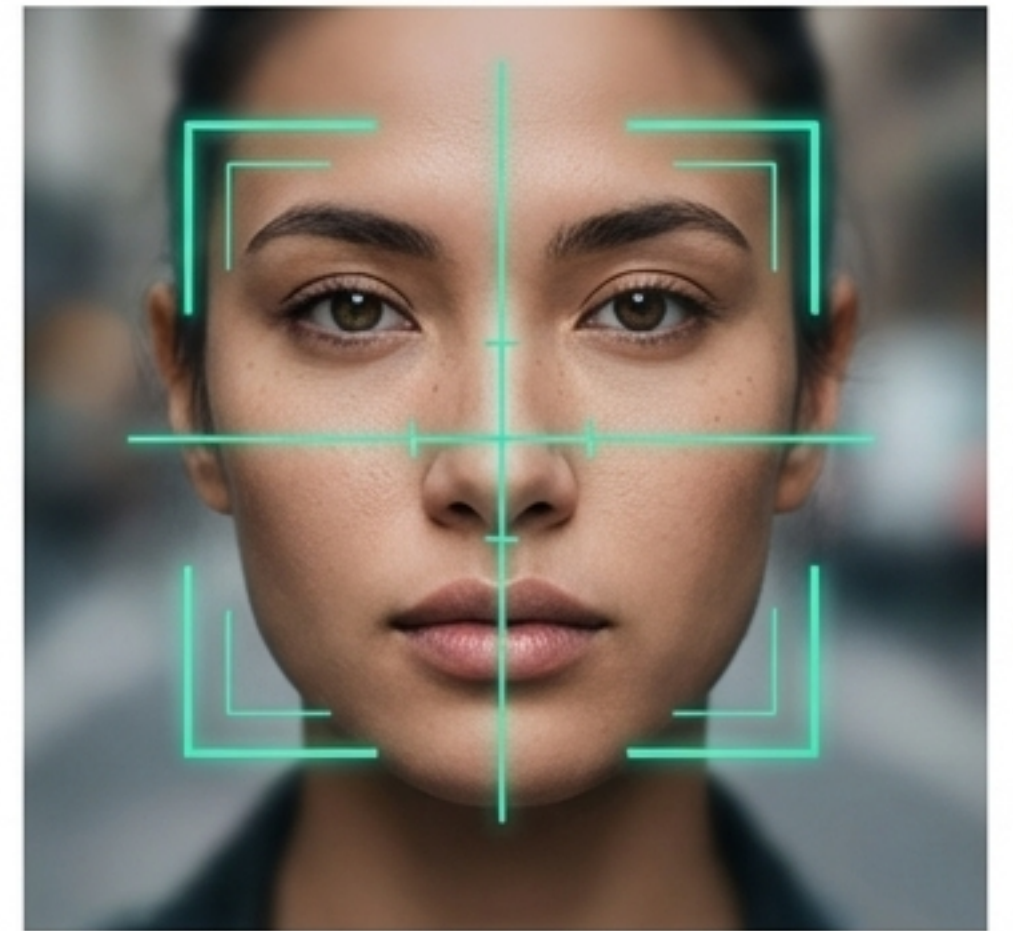

Step 2: Noise Reduction

Noise

Signal

Step 3: Edge Reconstruction

Enterprise-grade AI is now free on the phone you already own

Oct 2021/2022

May 2024

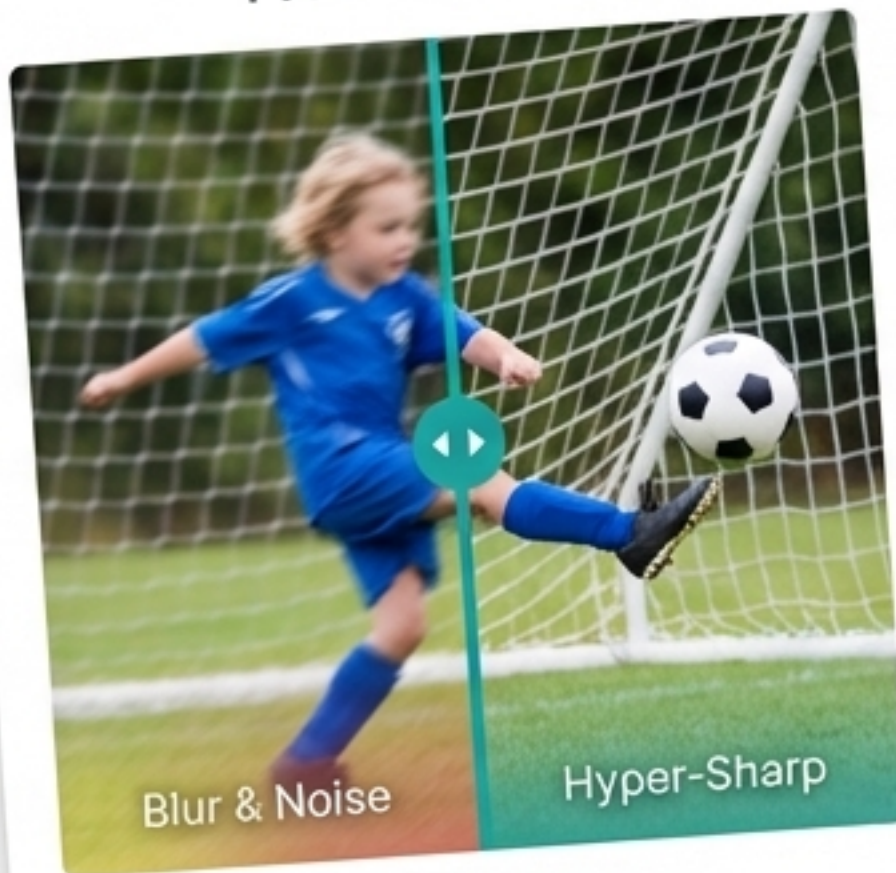

**Unlocked for all Google Photos users.
No Pixel required.
No subscription needed.**

The Blur Fix Comparison Matrix

	Cost	Underlying Method	Output Quality	Accessibility
Traditional Sharpening	\$\$\$	Edge Contrast	High Noise	Desktop only
Paid AI Apps	\$8/week	Cloud AI	Good	App Download
Google Photo Unblur	100% Free	On-Device/Cloud CNNs	Flawless Clarity	Built-in to Google Photos

One tool rescues photos from any era and any lighting condition

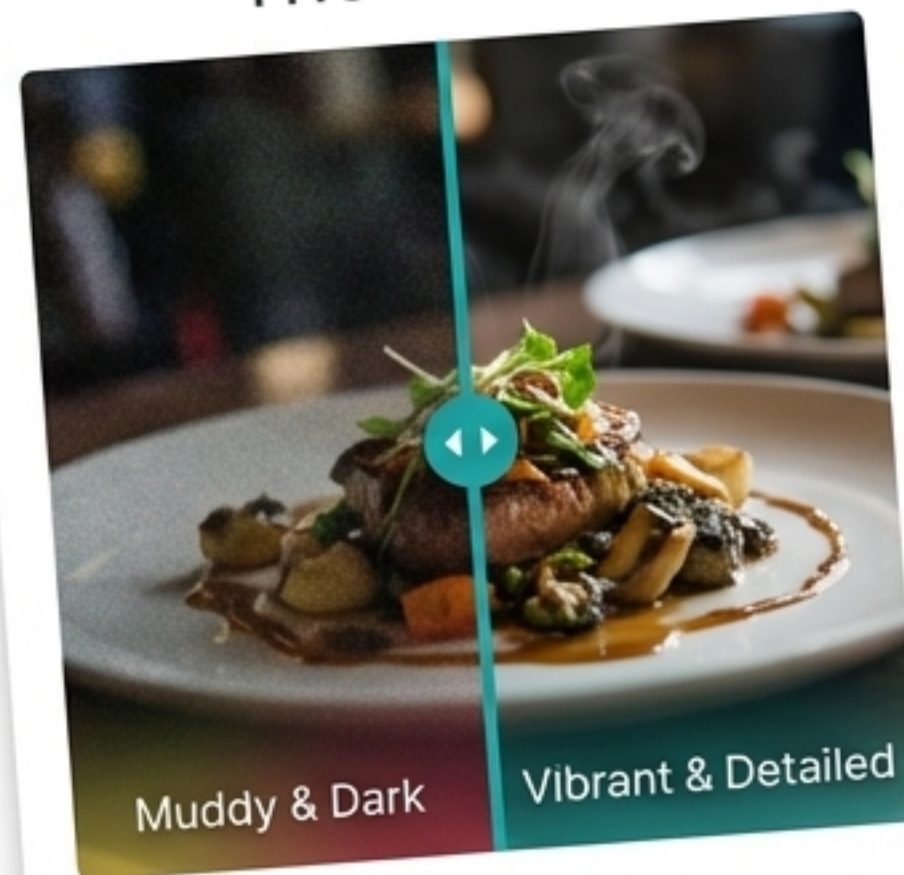

The Parent

The Genealogist

The Foodie

The three-step rescue operation inside Google Photos

Navigating common roadblocks and fine-tuning the results

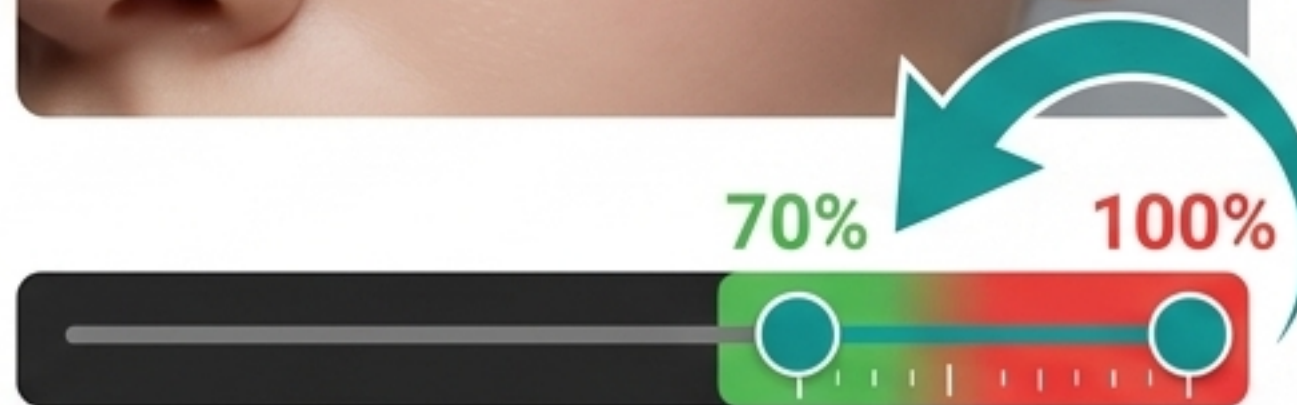

Tool Missing?

Can't find Unblur?

Check App Store/Play Store for updates

Ensure image is backed up to cloud.

The Uncanny Valley

Dial back the slider to maintain natural skin texture.

The 2026 Workflow: Reconstruct the subject, reimagine the context

Phase 1: Photo Unblur

Phase 2: Magic Editor

Sharpen the memory first, curate the aesthetic second.

Your memories are too important to leave out of focus

**Open Google Photos.
Find your favorite ruined picture.
Fix it right now.**
